NATHAN P. CASE,

THE NEW YORK TRIBUNE, 1863. The New York Tribune, first issued in 184 now in its twenty second year, has obtained both a larger and more widely diffused circu lation than any other newspaper ever published in America. Though it has suffered

in common with other journals, from the vol unteering and departure of tens of thousands of its patrons to serve in the War for the Un ion, its circulation on the 6th of December

1862, was as follows: Daily, Semi-Weekly, Weckly, 215,375

Pre eminently a journal of New nd of Ltterature, the Tribune has political co victions which are well characterized by the single word Republican, in its hearty adhesion to the great truth that "God has made of onblood all nations of men"-Republicant in it assertion of the equal and inalienable rights of all men to "life, liberty, and the pursuit of happiness"—Republican in its steadfast, ear nest, defiant hostility to every scheme and effort of the Slave Power, from the Annexacion of Texas to the great Rebellion, to grasp the empire of the New World and wield the desources of our country for its own aggran-dizement—Republican in its hope and trust, its faith and effort, that this atrocious Rebel-

plotters, and the firm establishment of equal rights and equal laws throughout the whole extent of our country, wherein Liberty and union shall indeed be "one and inseparable" enceforth and forever. The Tribune devotes attention in calmer times, and to some extent in these, to Educa tion, Temperance, Agriculture, Inventions, and whatever else may minister to the spiritual and physical progress and well being of mau-kind; but for the present its energies and its columns are mainly devoted to the invigoration and success of the War for the Union Its special correspondents accompany every considerable army and report every important considerable army and report every important incident of that great struggle which we trust is soon to result in the signal and conclusive triumph of the National arms, in the restoration of Peace and Thrift to our distracted and bleeding country. We believe that no other wise can a fuller or more accurate riew of the progress and character of this momentous conflict be obtained than through the regular perusal of our columns. And we carneally solleit the co-operation of all friends of the National cause, which we regard and uphold as tional cause, which we regard and uphold a-

tending its circulation. The common increase in the price of printing paper and other materials used in printing newspapers, compels us to increase the price of the Tribune. Our new terms are: DAILY TRIBUNE.

\$5 RUNNING STITCH Sewing Machine. T is a PRACTICAL, BAPID, EFFICIENT and FOU nable Sewing Machine, adapted to a large proportion of Family Sewing, or for manufac-turing purposes, and is highly ornamental, and is so light and portable, (weighing less than

ne pound,) that it can be conveniently carried in the pocket or reticule. Its operation is so very sizerie, that it re-uires but a slight degree of judgment to use it. By the simple turning of a crank with one hand, and guiding the work with the other, it silently yet very rapidly, with a CORMON NEE-DLE, makes the running stitch EXACLLY LIKE HAND SEWING, only more perfect and regular It will HEM, GATHER, RUFFLE, SHIRR, TECK, RUS UP SEEADTHS, etc., with a single or double thread, on any material adapted to the Rus NING STITCH, from the LIGHTEST and THINNES up to two thicknesses of ordinary silk or mus-lin—the thinnest, usually the most difficult to stitch by other sewing machines, being sewithe easiest. For ladies' and children's apparel

and other articles made of light fabrics, it wil therefore be found almost invaluable.

It is attached to the table like a sewing bird and having no tension, and requiring no labri-cation or change of stitch, is always ready for operation, and such a marvel of simplicity, that

operation, and such a marrel or simplicity, that a child of six or eight years can unpressyand it immediately, and use it successfully.

It is not at all liable to get out of order.

The New York State Fair, recently held at lochester, has confirmed the efficiency and stoplicity and great practical utility of this Machine, by awarding it the First Paratum.

Each machine is put up in a neat box, accompanied with full and explicit directions, and twenty five needles.

THE PROPERTY OF

Scrofula, or King's Evil

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervales the whole body, and may burst eat in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is rationally caused by mercurial disease, low living, disordered or unhealthy food, impure air, flith an. flithy habits, the depressing vices, and, above a. by the venereal infection. Whatsover he its o'cigin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have for less power to withquently vast numbers perish by disorders which, although not ecrofulous in their nature, are still rendered fatal by this mint in the me sail rendered man by the man in the system. Most of the consumption which decimates the human family has its origin directly in this acrofulous contamination; said many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous;
their persons are invaded by this lurking in-Section, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combeen discovered for the expurgation of this foul disorder from the blood, and the rescue of the evsem from its destructive consequences. We are enabled here to offer the community a sensety which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Crus" expels the minsmatic poison of Favus and Aocu from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in hillous districts, where Pavus and Aocus prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain ever of Intermittents is that it contains no Quinine core of Intermittents is that it contains no Quinine or mineral, consequently it produces no other injurious effects whatever upon the constitu-fion. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the missmatic poison. A great variety of disorders arbe from its irritation, among which are found its irritation, among which are foundation, from the form the first and the factor of the Spicen, Blindwess, Toothache, Earache, Catarrh, Asthma, Palapitation, Painful Affection of the Spicen, Hysteries, Pain in the Boxels, Cohe, Paralysis and Derengement of the Stomach, all of which, when wriginating in this cause, put on the intermittent type, or become periodical. This "Cunz" expels the poison from the blood, and consequently cures them all ailite. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot secumulate in sufficient quantity to ripen into discuss. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
